PROFESSIONAL SUMMARY

Fraud and financial investigations professional with 5+ years of experience in fraud detection, transaction monitoring, dispute resolution, and regulatory compliance within financial institutions. Demonstrated track record of analyzing high-volume financial records, identifying anomalies and suspicious activity, and executing corrective actions that reduced discrepancies by 20%. Experienced with ACH, debit/credit card, and P2P payment disputes at Bank of America, with expertise in regulatory compliance, audit documentation, and cross-functional escalation workflows. Adept at managing 150–300+ daily cases with exceptional accuracy, urgency, and independent judgment in high-stakes, deadline-driven environments.

CORE COMPETENCIES

Fraud Detection & Investigation | Transaction Monitoring & Anomaly Analysis | ACH / Debit / Credit / P2P Dispute Resolution
Chargeback Eligibility Analysis | Suspicious Activity Identification | Regulatory Compliance (BSA/AML awareness)
Case Documentation & Audit Readiness | SLA Management | Cross-Functional Escalation | ServiceNow Ticketing
Financial Institution Operations | Independent Judgment & Decision-Making | Multi-System Navigation | Microsoft Office Suite

PROFESSIONAL EXPERIENCE

Research & Adjustment Analyst II

Dec 2022 – Apr 2023

Bank of America | Atlanta, GA (Remote)

- Investigated and resolved 150+ annual discrepancies in high-volume financial records by applying regulatory guidelines and internal policies, directly comparable to fraud case management and suspicious activity review.
- Analyzed datasets spanning millions of records to identify trends, anomalies, and compliance risks — reducing discrepancies by 20% through systematic corrective action and thorough documentation.
- Reviewed account activity to detect patterns consistent with unauthorized transactions, applying independent analytical judgment to determine appropriate resolution pathways.
- Prepared comprehensive audit reports and adjustment summaries supporting regulatory reviews, delivering actionable insights on 95% of analyzed records with full compliance documentation.
- Maintained strict data confidentiality and chain-of-custody integrity, coordinating with compliance and legal teams throughout all record-keeping and escalation activities.

Sr. Client Support & Asset Tracking Specialist

Mar 2021 – Oct 2022

Bank of America | Atlanta, GA (Remote)

- Tracked, routed, and resolved support cases across 50+ partner banks using structured ticketing and documentation workflows, maintaining complete audit trails — mirroring fraud case management responsibilities.
- Investigated and resolved encoding errors in collaboration with payments partners, demonstrating cross-functional coordination and analytical precision critical to payment fraud environments (ACH, P2P, Bill Pay).
- Organized and prioritized cases with detailed documentation for analyst distribution, ensuring timely closures and accountability standards consistent with fraud SLA requirements.
- Collaborated with team leads to verify complete resolution before case closure, upholding accuracy and regulatory compliance standards across high-volume queues.

IT Asset & Operations Support Specialist

Dec 2023 – May 2026

DXC Technology | Atlanta, GA (Remote)

- Reviewed and evaluated 1,200+ weekly records for compliance with organizational standards, enforcing accuracy and integrity protocols — directly applicable to fraud alert triage and suspicious activity monitoring.
- Triaged and managed 300+ daily service requests using ServiceNow workflows, achieving a 25% improvement in customer satisfaction scores through diligent prioritization and timely resolution within SLA.
- Identified and escalated emerging operational risks through continuous system monitoring, reducing risk exposure by 20% — consistent with proactive fraud detection and pattern recognition responsibilities.
- Maintained meticulous documentation across overlapping workflows in a fast-paced enterprise environment, consistently meeting compliance and reporting deadlines.

- Administered enterprise SaaS platforms (Okta/Azure AD, O365), ensuring assets and access records were accurately assigned, tracked, and compliant with security requirements.

IT Asset & Customer Operations Specialist

Apr 2023 – Nov 2023

Rheem Manufacturing Inc. | Atlanta, GA (Remote)

- Provided multi-channel support (phone, email, chat), achieving a 95% customer satisfaction rate through precise communication — directly applicable to speaking with account holders and victims in fraud investigations.
- Maintained organized, secure records of end-user assets and support history, ensuring chain-of-custody accuracy and facilitating rapid audit response.
- Collaborated with internal teams to document and resolve recurring technical issues, maintaining accurate records and demonstrating the cross-functional coordination central to fraud operations.
